

Flush Bolt, Radius Type

Features and Benefits

The Axim Flush bolts are rebated into a door, and are operated by a small lever. For maximum security Axim flush bolts secure the slave leaf of a pair of doors.

A standard installation requires two flushbolts morticed into the top and bottom of the door. For maximum security the Axim flush bolt has a hardened steel bolt, zinc plated with an anti-rattle sleeve.

- The Axim FB6200 extension flush bolts are a range of lever action flush bolts
- Primarily intended for mounting in the leading edge or inside face of the slave leaf of a pair of doors
- Key features include smooth lever action
- Available in one fully threaded length, 305mm, which can be cut to suit
- Shoot bolt: 18 mm diameter and a die cast zinc alloy body mechanism
